Tensorgrip®
Adhesives That Outperform

WHAT IS
TENSORGRIP®?

As far as spray adhesives are concerned, no other product can compare to the strength, tenacity and reliability of **TensorGrip®**. Available in canisters as well as aerosols, **TensorGrip's** innovative formula breaks down barriers presented by traditional bonding methods with effortless ease.

Our adhesive systems eliminate the need to use traditional methods of bonding, that are messy, wasteful and time-consuming. Because **TensorGrip®** is a spray adhesive you are completely in control of how much glue is used, resulting in an even spray pattern the way you want it without the fuss and inconsistency that comes with using hand-applied adhesive.

Our revolutionary adhesive formulas have been proven to almost completely remove the time spent waiting for glue to tack; where traditionally you would be waiting for 25 minutes, **TensorGrip®** can tack off in as little as **ONE MINUTE!**

Not only will **TensorGrip®** speed up your workflow and drastically reduce production time, it is guaranteed to transform the way in which materials are bonded together with noticeably superior results!

WHAT SIZES OF **TENSORGRIP®** ARE AVAILABLE?

Aerosol
Volume: 500ml

This convenient 500ml aerosol is perfect for small applications or for less-frequent users. Small but sticks all the same!

Canister
Volume: 13L/22L

Our most popular adhesive container; comes equipped with a gun and hose system for fast and accurate dispersal. A long-lasting and cost-effective solution available in a 13 or 22 litre canister.

Intermediate
Volume: 110L

The largest in our range, suitable mostly for use in large-scale production environments.

ZERO-FLAM

THE NEW TENSOR **LABELLING SYSTEM**

Choosing the product that is right for the job should never have to be a hassle, so we at Tensor have developed a new labelling system to help make your choosing of the correct adhesive as quick and easy as possible! Each of our aerosol, canister and intermediate labels have been colour coded to fit specifically into the market of which they apply to most and now feature icons that depict which applications the adhesive is best suited for. The following applications are carried out to the greatest effect with our **CONSTRUCTION** range:

Wall Panels

Insulation

Elevator Doors

C09

Polyurethane Foam Bead Adhesive

TensorGrip® C09 is a single-part, moisture-cure urethane foam adhesive designed specifically for bonding insulation such as ISO boards to a variety of substrates, including concrete, plywood and cementitious boards, brick and EPS or XPS (expanded or extruded polystyrene). **C09** saves time and labour by allowing application at a rate of 240 square feet (73m²) per minute.

Advantages:
- Full finger trigger movement.
- Fastest application ever.
- Uplift tested to 9kn.
- 17-23 sqm/kg (dependant on bead width).

Substrates:

Properties:

Available in:

C10

Polyurethane Foam Adhesive

TensorGrip® C10 polyurethane foam adhesive is single-part moisture-cure urethane foam adhesive designed specifically for bonding insulation such as ISO boards to a variety of substrates, including concrete, plywood and cementitious boards and brick. Also works with EPS or XPS (expanded or extruded polystyrene). **C10** saves time and labour by allowing an operator to apply the adhesive at a rate of 240 square feet (73 square meters) per minute.

Advantages:
- Will bond up to 23 sqm/kg.
- Fastest application ever.
- Uplift tested to 9kn uplift.

Substrates:

Properties:

Available in:

C11

Performance Panel Adhesive

TensorGrip® C11 is an extra high performance, panel bonding adhesive formulated specifically to bond insulated panel materials to GRP and Plywood (as well as EPS and polystyrene). **C11** is a fast drying formula that has excellent high coverage designed for bonding exterior grade substrates to insulated foam. This formula has excellent resistance when dealing with moisture and extreme weather exposure.

Advantages:

*   High solids.
*   High temperature resistance.
*   Designed for bonding exterior grade substances (FRP/GRP) to foam many other substances.
*   Polystyrene and EPS compatible.

Substrates:

Properties:

Available in:

C20

Super High Tack Waterbased Acrylic Adhesive

TensorGrip® C20 is suitable for bonding and laminating most insulation and lightweight panel materials to themselves and to a variety of substrates including MDF, chipboard, plywood and many metal sheet materials. **C20** is designed for permanent bonding of all types of slab insulation, fibrous quilts & slab materials, such as glass wool, where good bond strength and good heat resistance are required. Bonds can be made using single sided adhesive application in most areas.

Advantages:

*   VOC FREE
*   No odour
*   Excellent green strength and good heat resistance.
*   Good drying with long open time.
*   Excellent bond adhesion for a variety of materials including soft fabric, leather, most hard plastics, carpet insulation quilt and slab to most porous and non-porous substrates, e.g. plywood, MDF, chipboard, sheet metal, etc.

Properties:

Available in:

Save over £250
WE'LL SET YOU UP WITH **Tensorgrip**® FOR **FREE!**

Using **TensorGrip**® is more than simply using an adhesive canister; it is having everything that you need to create that unbeatable bond in as simple a fashion as possible. Inside this box lies the key to reaching the optimum potential of **TensorGrip**®, bringing your work to new heights of quality and efficiency, all the while incurring absolutely no additional cost to your first canister purchase*. We are proud to introduce the **TensorGrip® Kick Off Kit.** This unique package comes with all of the essential tools for bonding, including a Professional Spray Gun, Hose, Gun Tip, Roller and a **Tensor**-branded Ball. Everything to ensure that you are getting the very best out of our adhesives!

Kick Off

Dual GLEEM TEX

C101

Citrus Adhesive Cleaner

TensorGrip® **C101** Citrus Cleaner is a biodegradable, citrus solvent cleaner, degreaser and adhesive remover. It can be used safely on most surfaces and substrates, including painted surfaces, glass, porcelain, concrete, and is compatible with many plastics and vinyls.

Advantages:

- Biodegradable.
- Compatible with most plastics.
- Citrus scent.
- Increased productivity.
- Minimises waste.
- Minimises equipment set-up & clean-up.
- Completely portable.

S105

Acetone Cleaner

TensorGrip® **S105** Acetone Cleaner is a solvent cleaner, hose flush and has been specifically designed for use with **TensorGrip®** PU canister products as a Hose & Spray Gun Flushing System. It can be used safely on most canister spray equipment and is a strong solvent (will not remove dried/cured PU products). This product can be used safely on most surfaces and substrates including painted surfaces, glass, porcelain, concrete, and is compatible with many plastics and vinyls.

Advantages:

- Efficient clean-up & maintenance.
- Compatible with most adhesives.
- Compatible with most plastics.

sticky points

®

THE ADHESIVE LOYALTY SCHEME

Receive **FREE** Tensor® products when you sign up to the **Sticky Points Loyalty Programme!**

Register for free and start earning **Sticky Points®** straight away! Simply buy **Tensor®** products from your usual distributor and enter your unique code online to earn **Sticky Points®**. These points can be exchanged for a range of **Tensor®** products, such as a 22L canister, a roller or spray gun, or even a football! Better still, we'll send your reward to you **FREE OF CHARGE!**

Why not check the canister you are currently using for a **Sticky Points®** label?

HERE'S HOW IT WORKS

1.   Register your details
2.   Find the code on your **Tensor®** product
3.   Access your account
4.   Enter your code
5.   Watch your points balance grow
6.   Redeem!

When you have collected enough points, **REDEEM** those points for your favourite product and we'll send it to you **FREE OF CHARGE!**

Scan here and register to start collecting **Sticky Points** now!
