

# 3 REASONS WHY YOU NEED TENSORGRIP® REEFER REPAIR ADHESIVE

## EASY TO USE

Tensorgrip® Reefer Repair Adhesives simplify your job. It only takes three steps and 45 minutes to repair a full refrigerated trailer wall. Eliminate blocking and bracing for good!

## GETS THE JOB DONE

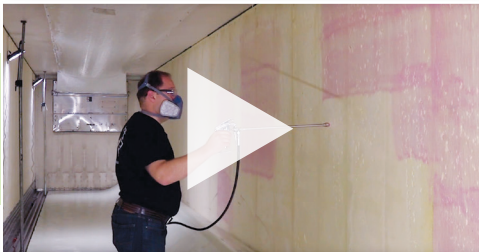

With such a short turnaround time, you can push more jobs through your shop. Get more done in a day and see your profits rise!

## SUCCESSFUL

There's a reason trailer manufacturers recommend this glue. Tensorgrip® Reefer Repair Adhesives are proven to be stronger than the original factory bond and **62% stronger than the "leading" competitor**. No more worrying about liners coming loose. Here's to happy customers!

# NEW SIZE FOR PARTIAL WALL LINER JOBS!

## Introducing the New 7 Liter Canister!

The 7 liter canister is the perfect size for smaller jobs. Tensorgrip® EP0-CAL-7 contains enough adhesive for approximately 1/3 of a full wall and is perfect for bottom rail jobs, door repairs, and gluing up partial wall liners.

Use item EP0-CAL-22 (22 liter canister) for full wall liner jobs and EP0-CA-AA (aerosol can) for small wall liner patches.
